

Vintage™

Recreating the timeless beauty of a naturally weathered stone wall, Vintage™ is the premier choice for distinctive landscapes. Six unique, double-sided Vintage blocks make it easy to install random patterns for compelling wall designs. Vintage makes the industry's first 8' radius without cutting and its versatility allows you to combine retaining with freestanding walls to create the ideal solution for the perfect outdoor living space.

RETAINING WALLS
A better way.™

The Advantages of the Vintage™ System...

It's Fast...

Located on the underside of each Vintage™ block is a 4" x 4" Anchor Bar that makes installation a breeze. The Anchor Bar ensures Vintage builds perfectly vertical and has the highest shear resistance in the industry.

It's Simple...

The interlocking channel on top of each Vintage™ block provides for quick installation of retaining walls, garden walls, seat walls, and pillars.

It's Strong...

In addition to the Anchor Bar, the Vintage™ Block's unique design not only resists the forces of tumbling, but the elements as well. Upon assembly, Vintage™ Blocks create a 4" diameter "stone column". When layered with grid, the gravel filled stone columns provide a multi-point interlock, resulting in a more uniform block-to-grid mechanical connection.

It's Versatile...

Six unique, double-sided Vintage™ blocks make it easy to recreate the timeless beauty of a naturally weathered stone wall. Its patented design makes Vintage extremely versatile. You can easily combine retaining and freestanding walls, build using one size block, any combination of blocks, and in 16", 24", and 32" random patterns.
